

Certificate

Report No.: 21202175-01B

License Holder:
Helios Technology S.r.l.
Via Postumia 11
35010 – Carmignano di Brenta (PD)
Italy

Product:
PV Modules
Type: **H 750**

Basis:

- TÜV Spec TZE/2.572.09**
"Safety Class II Test on
Photovoltaic (PV) Modules"
- Factory Inspection**
To document the consistent quality of
the product factory inspections are
performed periodically.

Remarks:

The above mentioned PV module may be used in PV plants at a total voltage (maximum system voltage) of up to **750 VDC**.
The module type has been developed from the PV module type H 1540.

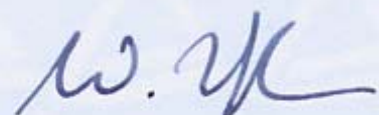

Constructional changes: smaller (half) cells
number of cells (39)
two bypass diodes
electrical characteristics
module dimension

Conditions:

The product test is voluntarily according to technical regulations. Any change of the design, materials, components or processing may require the repetition of some of the qualification tests in order to retain type approval.

The certificate has a validity of 3 years counting from the date of issue, provided that the testing basis remains unchanged. The series production is not subject to a control and is not part of the assessment.
